

Announcement:
The Community College Initiative Program
FY 2015-16

The American Center at the U.S. Embassy Dhaka is pleased to announce the Community College Initiative Program (CCI) for academic year 2015-16. The CCI Program is sponsored by the U.S. Department of State's Bureau of Educational and Cultural Affairs (ECA).

CCI provides participants from selected countries with opportunities to study at community colleges in the United States to build mutual understanding through a non-degree program of academic, vocational, and cultural studies. It is an intensive program intended to provide student leaders with a deeper understanding of the United States, while simultaneously enhancing their leadership skills. Since 2007, nearly 2,100 students from 15 countries have received scholarships for study at community colleges throughout the United States.

Students who have completed their higher secondary education will spend one academic year in the United States enrolled full-time at an American community college. The 2015-2016 program provides academic instruction at community colleges throughout the U.S. in the fields of agriculture, applied engineering, business management and administration, early childhood education, information technology, media, public safety, and tourism and hospitality management.

Although participants may earn an academic certificate in their field of study and gain first-hand practical experience through internships in their field of study, this is not a degree program. In addition to receiving professional training, participants develop leadership skills, build English language proficiency, and learn about American society and culture, including community service and social responsibility. After completing the program, participants will return to their home countries with new skills to help them contribute to the economic growth and development of their countries.

Participants are expected to be highly motivated and exemplary students who have completed their HSC or A-levels.
